

EXECUTIVE SUMMARY

TARGET: FULLSTACK (PAGE 1 OF 2)

Fullstack Software Engineer with 2+ years of enterprise Application Support experience at PT PLN Icon+. Proven track record maintaining 100% SLA compliance for production operational tickets, authoring structured SQL queries (PostgreSQL, Oracle, MySQL) for transaction verification and data reporting, and monitoring high-availability system workflows 24/7. Deeply proficient in AI-Assisted Engineering, pairing with LLM tools to accelerate architecture design, component prototyping, and automated test generation. Concurrently architected and deployed 82 verified software repositories spanning distributed Go & Java Spring Boot microservices, modern Next.js 16 & React 19 web platforms, and mobile apps. Strong foundation in Clean Architecture (DDD), ACID transactional ledgers, Redis caching, RabbitMQ message brokers, and Docker containerization.

PROFESSIONAL EXPERIENCE

Application Support Engineer • PT PLN Icon+

2023 - Present

- Investigated and resolved technical operational and incident tickets for enterprise utility platforms with a strict **100% SLA compliance rate**, ensuring zero-downtime operations.
- Authored and executed complex SQL queries across **PostgreSQL, Oracle, and MySQL** for transactional data validation, data auditing, anomaly rectification, and executive operational reporting.
- Monitored nationwide enterprise system workflows and microservices 24/7, proactively identifying transaction failures, API synchronization bottlenecks, and external service latency spikes.
- Investigated application log telemetry (trace IDs, stack traces), conducted Root Cause Analyses (RCA), and collaborated directly with core backend developers to verify and deploy production bug hotfixes.
- Documented recurring operational incident runbooks and standardized SQL query templates, accelerating triage duration for similar tickets and staging UAT patch verifications.

AI-Assisted Software Engineer & Open Source Contributor • Independent Engineering & Open Source Projects

2023 - Present

- Pioneered human-AI pair programming workflows with frontier models (**Gemini 2.5, Claude 3.7, OpenAI APIs**) to accelerate architectural design, relational schema modeling, and automated test suite generation.
- Independently architected, developed, and audited **82 production-grade repositories** applying Clean Architecture (DDD) and Docker containerization.
- Architected normalized relational database schemas with structured foreign keys, strict server-side schema validation, and decoupled domain layers (handler, service, repository) for long-term maintainability.
- Engineered high-concurrency transactional architectures with **PostgreSQL ACID row-level locks**, Redis cache-aside patterns, RabbitMQ decoupled event brokers, and dual-layer 60 FPS canvas graphics.
- Deployed and maintained **12 production applications live on Vercel** with serverless database connectivity, reactive Next.js 16 Server Components, and zero-downtime deployment pipelines.

TECHNICAL COMPETENCIES & CORE STACK

Languages: Go (Golang), Java (JDK 17/21), TypeScript, JavaScript (Node.js/Bun), Python 3, PHP 8, Dart, SQL, HTML5/CSS3

Backend & Cloud: Java Spring Boot 3.3, Go (Gin/Fiber/Echo), Bun + Hono, Express.js, FastAPI, Laravel 12, Clean Architecture (DDD), RESTful APIs, gRPC (Protobuf), Microservices, WebSocket

Frontend & Mobile: Next.js 16 (App Router), React 19, TypeScript, Vue 3 (Pinia), Angular 19 (Signals), React Native (Expo SDK 56), Flutter (Riverpod 3), Tailwind CSS v4, Zustand, Redux Toolkit

Databases & Messaging: PostgreSQL (GORM, Prisma, ACID Transactions, Connection Pooling), MySQL, MongoDB, SQLite (LibSQL), Redis (Cache-Aside, Rate Limiting), RabbitMQ (Message Broker)

AI & Agentic Engineering: Gemini 2.5, Claude 3.7, OpenAI APIs, AI Component Prototyping, Prompt Engineering, Agentic Tooling, Automated Testing

DevOps, Tooling & Testing: Docker, Docker Compose, Git & GitHub, Postman, Swagger / OpenAPI, Vite, Webpack 5, Linux Bash, Vercel Edge Runtime

EDUCATION

Bachelor of Computer Science / Information Technology (S.Kom) • Universitas AMIKOM • GPA: 3.42 / 4.00 (Thesis Defense: Dec

2017 -
2023

2022 | Official Degree / Graduation: 2023)

Recommended for You

See All

1. BayE Auction & E-Commerce Marketplace

FULLSTACK

Next.js 16 • React 19 • Prisma 7 • LibSQL Serverless Database

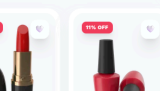

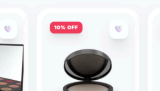

Fullstack auction and e-commerce marketplace featuring live bidding simulation, serverless LibSQL database, product spec comparison, and QR invoice generation.
