PROFESSIONAL SUMMARY

PAGE 1: ENGLISH (ATS STANDARD)

Fullstack Developer with 3 years of professional experience in Application Support at PT PLN Icon+. Experienced in developing fullstack web applications using React, Next.js, and TypeScript on the frontend, combined with Go (Golang) and PostgreSQL on the backend. Brings practical operational background in database troubleshooting, SQL query analysis, and API integration.

PROFESSIONAL EXPERIENCE

Application Support — PT PLN Icon+

2022 - Present

- Monitored enterprise application workflows and handled operational incidents to ensure smooth daily production services.
- Investigated database queries, identified data bottlenecks, and assisted in troubleshooting relational databases (PostgreSQL, Oracle, MySQL).
- Documented system troubleshooting procedures and collaborated with engineering teams to report bugs and verify fixes.

Software Development (Independent Projects) — Hands-on Practice & Open Source

2024 - Present

- Built 20+ fullstack and backend web applications using Go (Golang), React, Next.js, and Java Spring Boot to study modern software architecture.
- Designed relational database schemas, implemented JWT authentication, and practiced safe database transaction handling in PostgreSQL.
- Developed responsive frontend interfaces with React/TypeScript and containerized local development environments using Docker.

FEATURED REPOSITORIES (FULLSTACK & BACKEND GO)

Go Marketplace (Fullstack Go & React)

GO • REACT • GORM • POSTGRESQL • JWT

Fullstack e-commerce marketplace built with Go and React. Features REST API, JWT auth, product catalog management, and transactional PostgreSQL integration.

Go Marketplace Backend (GORM & REST API)

GO • FIBER • POSTGRESQL • GORM • DOCKER

High-performance REST API backend for e-commerce with Go, GORM ORM, and PostgreSQL. Handles atomic checkout transactions and connection pooling.

Go Clean Architecture REST API

GO • CLEAN ARCHITECTURE • DOCKER • POSTGRESQL

Modular Go REST API built with Clean Architecture principles, decoupling domain entities, usecase logic, and database repositories for unit testing.

BayE Marketplace (Fullstack Next.js)

NEXT.JS 14 • REACT • TYPESCRIPT • TAILWIND

Modern e-commerce and auction platform inspired by eBay. Features server-rendered product hydration, dynamic bidding simulation, and responsive cart.

Go Banking Core Engine

GO • ACID TRANSACTIONS • POSTGRESQL • DOCKER

Core financial banking API in Go handling user balance transfers with strict ACID compliance, row-level locking (SELECT FOR UPDATE), and audit logging.

Bun & Hono E-Commerce Backend

BUN • HONO • DRIZZLE ORM • ZOD • JWT

Modern ultra-fast TypeScript backend built on Bun runtime with Hono, Drizzle ORM type-safe SQL queries, Zod schema validation, and RBAC auth.

TECHNICAL COMPETENCIES

Engineering & Frameworks: Next.js, React.js, Go (Golang), Java Spring Boot, Express.js, Node.js, Vue 3, Angular, Python (FastAPI), TypeScript, Tailwind CSS

Databases & Cloud Tools: PostgreSQL, MySQL, MongoDB, Redis, Docker, GORM, Prisma ORM, AWS, Vercel Edge, Git & GitHub, Postman

EDUCATION

Bachelor of Computer Science / Information Technology

2017 - 2022

Universitas Gunadarma • GPA: 3.48 / 4.00

RINGKASAN PROFESIONAL

HALAMAN 2: BAHASA INDONESIA (STANDAR ATS)

Fullstack Developer dengan 3 tahun pengalaman profesional di bidang Application Support pada PT PLN Icon+. Berpengalaman mengembangkan aplikasi web menggunakan React, Next.js, dan TypeScript pada frontend, dipadukan dengan Go (Golang) dan PostgreSQL pada backend. Memiliki pemahaman praktis dalam troubleshooting database, analisis query SQL, dan integrasi REST API.

PENGALAMAN PROFESIONAL

Application Support — PT PLN Icon+

2022 - Sekarang

- Memantau alur kerja aplikasi korporat dan menangani insiden operasional untuk memastikan kelancaran layanan sistem produksi harian.
- Menganalisis query database, mengidentifikasi kendala data, dan membantu investigasi pada database relasional (PostgreSQL, Oracle, MySQL).
- Menyusun dokumentasi penanganan kendala sistem dan berkoordinasi dengan tim developer untuk pelaporan bug dan verifikasi perbaikan.

Pengembangan Perangkat Lunak (Proyek Mandiri) — Eksplorasi Praktis & Open Source

2024 - Sekarang

- Membangun 20+ aplikasi web fullstack dan backend menggunakan Go (Golang), React, Next.js, dan Java Spring Boot untuk memperdalam arsitektur perangkat lunak.
- Merancang skema database relasional, menerapkan autentikasi JWT, dan mengimplementasikan penanganan transaksi database di PostgreSQL.
- Mengembangkan antarmuka frontend responsif dengan React/TypeScript dan menyiapkan lingkungan pengembangan menggunakan Docker.

PROYEK REPOSITORI PILIHAN (FULLSTACK & BACKEND GO)

Go Marketplace (Fullstack Go & React)

GO • REACT • GORM • POSTGRESQL • JWT

Marketplace e-commerce fullstack dengan Go dan React. Dilengkapi REST API, autentikasi JWT, manajemen katalog produk, dan integrasi database PostgreSQL transaksional.

Go Marketplace Backend (GORM & REST API)

GO • FIBER • POSTGRESQL • GORM • DOCKER

Layanan backend REST API performa tinggi untuk marketplace e-commerce dengan Go, GORM ORM, dan PostgreSQL. Mengelola transaksi checkout atomik dan connection pooling.

Go Clean Architecture REST API

GO • CLEAN ARCHITECTURE • DOCKER • POSTGRESQL

REST API modular di Go yang menerapkan prinsip Clean Architecture, memisahkan entitas domain, logika usecase, dan repository database untuk kemudahan unit testing.

BayE Marketplace (Fullstack Next.js)

NEXT.JS 14 • REACT • TYPESCRIPT • TAILWIND

Platform lelang dan belanja modern terinspirasi oleh eBay. Menampilkan hidrasi katalog produk server-rendered, simulasi lelang harga langsung, dan keranjang responsif.

Go Banking Core Engine

GO • ACID TRANSACTIONS • POSTGRESQL • DOCKER

Layanan transaksi perbankan di Go yang menangani transfer saldo akun dengan kepatuhan ACID ketat, row-level locking (SELECT FOR UPDATE), dan pencatatan audit trail.

Bun & Hono E-Commerce Backend

BUN • HONO • DRIZZLE ORM • ZOD • JWT

Backend TypeScript modern dan ultra-cepat di atas runtime Bun dengan framework Hono, query database type-safe Drizzle ORM, validasi skema Zod, dan kontrol akses RBAC.

KOMPETENSI TEKNIS

Bahasa & Framework: Next.js, React.js, Go (Golang), Java Spring Boot, Express.js, Node.js, Vue 3, Angular, Python (FastAPI), TypeScript, Tailwind CSS

Database & Cloud: PostgreSQL, MySQL, MongoDB, Redis, Docker, GORM, Prisma ORM, AWS, Vercel Edge, Git & GitHub, Postman

PENDIDIKAN

Sarjana Ilmu Komputer / Teknologi Informasi

2017 - 2022

Universitas Gunadarma • IPK: 3.48 / 4.00
