PROFESSIONAL EXPERIENCE

Application Support Engineer • PT PLN Icon+

2023 - Present

- Investigated and resolved technical operational and incident tickets for enterprise utility platforms with a strict **100% SLA compliance rate**, ensuring zero-downtime operations.
- Authored and executed complex SQL queries across **PostgreSQL, Oracle, and MySQL** for transactional data validation, data auditing, anomaly rectification, and executive operational reporting.
- Monitored nationwide enterprise system workflows and microservices 24/7, proactively identifying transaction failures, API synchronization bottlenecks, and external service latency spikes.
- Investigated application log telemetry (trace IDs, stack traces), conducted Root Cause Analyses (RCA), and collaborated directly with core backend developers to verify and deploy production bug hotfixes.
- Documented recurring operational incident runbooks and standardized SQL query templates, accelerating triage duration for similar tickets and staging UAT patch verifications.

AI-Assisted Frontend & Mobile Engineering • Independent Engineering & Open Source Projects

2023 - Present

- Pioneered human-AI pair programming workflows with frontier models (**Gemini 2.5, Claude 3.7, OpenAI APIs**) to accelerate architectural design, relational schema modeling, and automated test suite generation.
- Independently architected, developed, and audited **48+ frontend and mobile applications** applying Clean Architecture (DDD) and Docker containerization.
- Architected normalized relational database schemas with structured foreign keys, strict server-side schema validation, and decoupled domain layers (handler, service, repository) for long-term maintainability.
- Engineered interactive user interfaces featuring **dual-layer 60 FPS graphics (React-Konva)**, responsive state machines (Zustand, Signals), and cross-platform mobile apps (React Native Expo, Flutter).
- Deployed and maintained **12 production applications live on Vercel** with mobile-first responsiveness, accessible design systems, and instantaneous page hydrations.
